

Business & Economic Empowerment Track

Kenya Kingdom Impact Trip 2026

"We came to do business. Kingdom business."

Two cities. Two conferences. One mission.

NAIROBI • MOMBASA | APRIL 22 – MAY 7, 2026

TPC Ministries • Institute for Human Advancement • Uplift Communities | In Partnership with Rise Church Kenya

"We came to do business. Kingdom business."

As part of the Kenya Kingdom Impact Trip 2026, Uplift Communities is hosting two full-day business conferences — one in Nairobi, one in Mombasa — built to create real deals, real investments, and real economic movement.

We are bringing together high-growth Kenyan companies, international investors, business leaders, and entrepreneurs for working sessions that end with commitments — not just conversations. This is not a talking conference. This is where capital meets opportunity.

Capital**

PILLAR 01

Nairobi Business Conference

Kenya's Capital. Africa's Opportunity. · April 24, 2026 · Full-Day Conference

Nairobi is Kenya's capital, economic hub, and home to one of Africa's most dynamic startup ecosystems. This conference brings high-growth Kenyan companies together with international investors and strategic partners for working sessions built around real opportunity.

Investor Pitch Sessions

Vetted Kenyan companies presenting directly to international investors across technology, agriculture, healthcare, logistics, and consumer services.

Entrepreneurship & Scaling

Strategies for high-growth businesses moving from traction to scale — operational, financial, and market expansion frameworks.

Cross-Border Partnerships

Market entry strategy, trade facilitation, and East African expansion sessions for companies on both sides of the table.

Leadership & Org Development

Building internal capacity — leadership structures, governance, talent, and culture for scale.

PILLAR 02

Mombasa Business Conference

Trade Hub. Coastal Capital. Regional Gateway. · May 1–4, 2026 · Full-Day Conference

Mombasa is Kenya's second-largest city, a major Indian Ocean trade port, and the gateway to East African commerce. This conference targets high-growth companies in trade, tourism, logistics, and coastal enterprise — and the investors ready to back them.

Trade & Export Strategy

Trade-based business development, export strategy, and supply chain innovation for companies at Kenya's primary port city.

Tourism & Hospitality Ventures

Tourism infrastructure, hospitality development, and coastal ventures with scale potential — connecting operators with investors.

Small & Mid-Size Acceleration

Targeted growth programming for companies with product-market fit that need capital and expertise to reach the next level.

Regional Economic Partnerships

Connecting coastal enterprises with East African regional partners for joint ventures, distribution, and market expansion.

Investment Focus — Sector Pipeline

Curated Opportunities Across High-Growth Kenyan Sectors

We are curating a pipeline of high-growth Kenyan companies across technology, agriculture, healthcare, logistics, and consumer services. International investors will have direct access to vetted opportunities with real traction and real potential.

Technology

Fintech, edtech, healthtech, agritech, and SaaS companies building for East African and pan-African markets with strong unit economics.

Agriculture

Food production, agri-processing, value-chain solutions, and climate-smart farming — one of the most investable sectors on the continent.

Healthcare

Private clinics, diagnostic services, medical tech, and health logistics addressing massive underserved demand with scalable private-sector models.

Logistics & Trade

Port-adjacent businesses, last-mile delivery, cold chain, and cross-border trade — Mombasa's position creates structural competitive advantages.

Consumer Services

Retail, hospitality, real estate, and service businesses with proven demand and experienced operators ready to scale.

Impact & ESG

Companies with measurable social and environmental returns alongside financial performance — matching the mandate of impact funds and family offices.

Who Should Be in the Room

This is not a general audience event. We are curating both sides of the room so every conversation has the potential to become a deal, a partnership, or an investment.

Kenyan Side

→ High-Growth Companies

Businesses with traction seeking capital, expertise, or market access.

→ Industry Leaders

Senior executives in tech, agriculture, healthcare, logistics, and trade.

→ Entrepreneurs & Founders

From early-stage startups to established SMEs ready for the next level.

→ Young Professionals & Grads

Kenya's next generation of economic builders and emerging leaders.

International Side

→ Investors

Angels, VC, impact funds, and family offices seeking vetted African deal flow.

→ Corporate Partners

Organizations exploring East African market entry, partnership, or distribution.

→ Business Leaders

Executives bringing strategic value, mentorship, and financial commitment.

→ Diaspora Entrepreneurs

Kenyan professionals abroad bringing capital and cultural intelligence back home.

What We Need From You

Five ways to participate — each essential to building a conference that produces real outcomes.

Investors

Bring capital and deal-making capacity. Direct access to vetted founders, pitch sessions, and follow-up deal flow after the conferences.

Speakers & Facilitators

Bring actionable expertise in fundraising, scaling, market entry, and leadership. We want speakers who have built things.

Sponsors

Fund venue, production, and attendee access. Your brand positioned in front of Kenyan business leaders and an international investor delegation.

Strategic Partners

Co-host, co-brand, or send a delegation. If your organization operates in African markets or impact investing, we want you at the table.

Mentors

Commit to an ongoing relationship with a Kenyan entrepreneur beyond the conference. Mentors are the long-term engine of real impact.

What Success Looks Like

We measure success by what happens in the room — and what continues after we leave.

During the Conferences

- Investment commitments initiated between international investors and Kenyan companies
- Partnership agreements signed or in active progress
- Mentorship pairings established with 12-month commitment
- Kenyan founders walk away with actionable growth plans
- Both rooms leave knowing the next step — not just inspired

After the Conferences

- Active deal flow continuing between investors and Kenyan companies
- Cross-border business partnerships producing real revenue
- Mentorship relationships driving measurable business growth
- A repeatable model for annual investment conferences in Kenya
- IHA and Uplift Communities as permanent connectors in the ecosystem

📄 **The goal:** Move money, move expertise, move the economic needle.

The Bigger Picture

The business conferences are one piece of a 16-day, multi-sector initiative across three Kenyan cities.

KENYA KINGDOM IMPACT TRIP 2026 · APRIL 22 – MAY 7 · NAIROBI, KAKAMEGA, MOMBASA

16 Days

Across 3 cities — Nairobi, Kakamega, and Mombasa

4 Tracks

Simultaneous service tracks for holistic community transformation

Rise Church Kenya

In partnership — anchoring the mission across all cities and tracks

Track	Cities
Business & Economic Empowerment	Nairobi + Mombasa
Health & Wellness	Kakamega + Mombasa
Education & Technology	All three cities
Ministry & Spiritual Care	All three cities

Get Involved

Four ways to plug into the Business & Economic Empowerment Track

1

Invest

We are building a curated pipeline of high-growth Kenyan companies. Tell us your sectors and investment thesis — we will connect you with the right founders for direct pitch access and follow-up deal flow.

2

Speak or Facilitate

Send your background and area of expertise. We want practitioners who have raised capital, built companies, and navigated markets — not just presenters.

3

Sponsor

Your name in front of a curated room of Kenyan leaders and an international investor delegation. Sponsorship tier overview available on request.

4

Join the Full Trip

Many team members join for the Kakamega–Mombasa phase (arriving April 26, returning May 4–5, ~8–9 days) to minimize time away from work. Both windows are welcome.
